

**REMARKS-General**

The applicant submits that "bakelite" is not only a trademark, but also a generic name for a kind of materials to the person skilled in the art. "Bakelite" was first used to describe polyoxybenzylmethylenglycolanhydride which is an early plastic or resin made from phenol and formaldehyde. However, "bakelite" is now a generic name for heating-resisting plastic or resin. In other words, it means a thermosetting plastic or resin. In order to clarify that "bakelite" is not only to mean trademark, but also a kind of materials, even to lay persons, the printouts for showing the existence of the word "bakelite" in Wiktionary, Hutchinson encyclopedia and Collins English Dictionary are also enclosed for your reference, in which the word "bakelite" can be found in Wiktionary, Hutchinson encyclopedia and Collins English Dictionary (through Free Online Dictionary).

Should the Examiner believe that anything further is needed in order to place the application in condition for allowance, he is requested to contact the undersigned at the telephone number listed below.

Respectfully submitted,

Raymond Y. Chan  
Reg. Nr.: 37,484  
108 N. Ynez Ave. Suite 128  
Monterey Park, CA 91754  
Tel.: 1-626-571-9812  
Fax.: 1-626-571-9813

**Certificate of Facsimile Transmission**

I hereby certify that this correspondence is being facsimile transmitted to the Patent and Trademark Office (Fax No. (571)273-8300) on August 09, 2010 (Date).  
Typed or printed name of person signing this certificate:
